

avato Karrieremodell

Opportunities, Steps and Directions

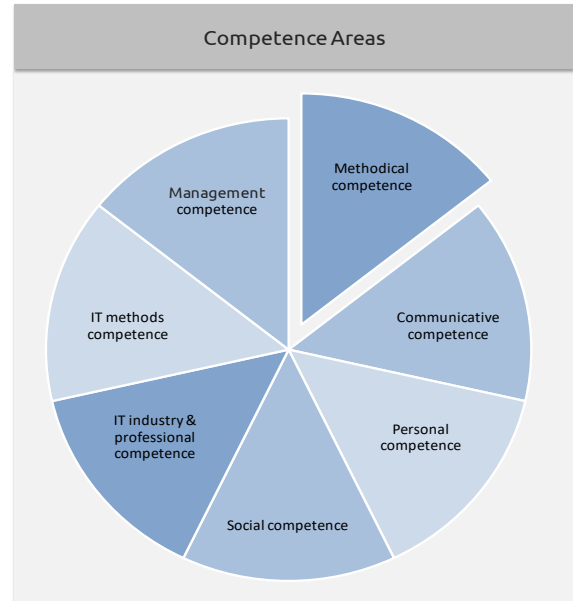

"You have to try the impossible to achieve the possible"

(Hermann Hesse)

Areas of Competence

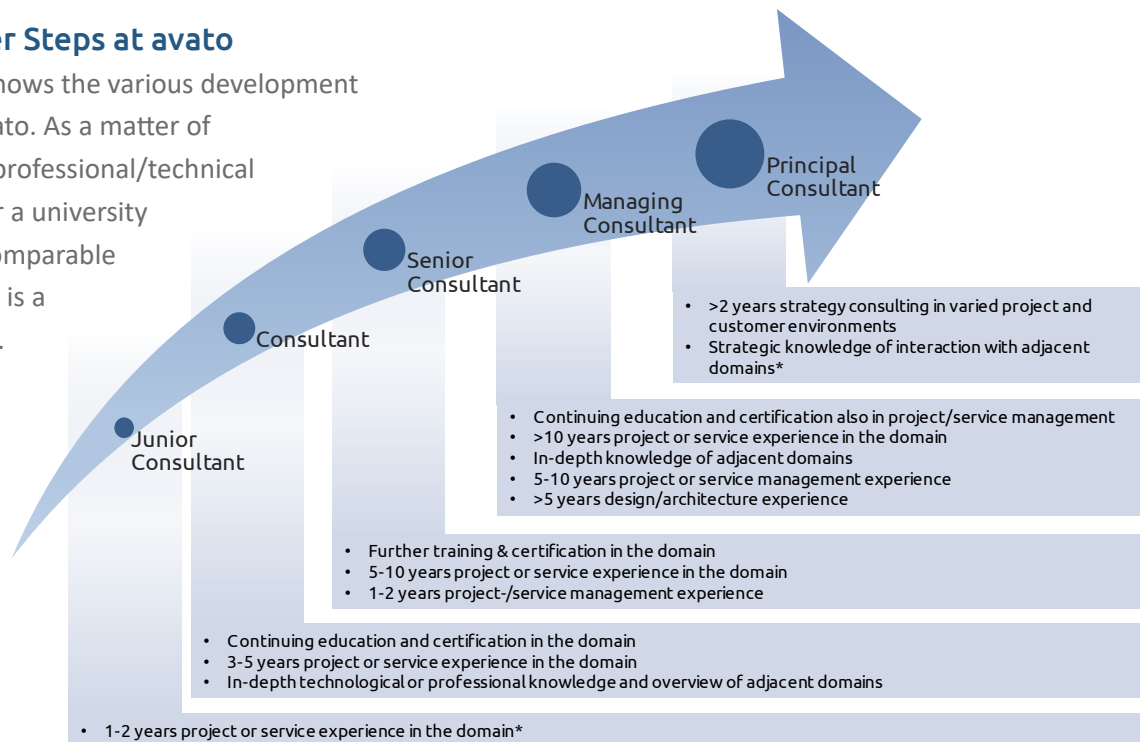

avato consultants are characterised by a multitude of different competencies. In addition to competencies that are related to IT technology and IT methodology, this also includes ones that lie more in the sphere of personal competence. The avato competence model will focus on the following professional and personal competencies from the multitude of possible fields of competence.
