

Oracle Database Administrator (m/f/d)

avato consulting ag is a young, dynamic and growing IT consulting company. Our clients include international corporations and medium-sized companies in the sectors of banking, chemistry, logistics, telecommunications and information technology.

Attracting talented employees and partners, developing and inspiring the team, and building intellectual capital are the basics to making avato an outstanding company.

To strengthen our team we are looking for an **Oracle Database Administrator (m/f/d)**.

Tasks:

- Oracle DBA project resource
- Contribute to and build on an existing database team
- Configuration and administration of Oracle database 11g/12c/19c, RAC and Data Guard
- Performance Tuning and Optimization of 11G/12C database
- Database migration
- Database backup and recovery
- Working with Unix operating systems (Linux/Solaris)

Prerequisites:

- Bachelor of Computer Science / Information Systems or a related degree
- Oracle Database Administrator skills (3-8 years experience with Oracle databases, backup / recovery concepts and high availability clustered systems, including RAC, ASM, Dataguard.)
- Teamwork, communication skills, flexibility, and a solution-oriented mindset
- English written and spoken

Scope: Full-time

Location: Frankfurt / remote

What you can expect from us:

- Individual development opportunities
- Flat hierarchies
- Opportunity to contribute ideas
- Continuing education
- Long-term career planning
- Work-life balance
- Flexible salary and working time models
- Regional and international projects

Please send us your documents, including your earliest possible start date, as well as your salary requirements to Elke Spatz (career@avato-consulting.com or +49 6023 967 497).

We look forward to receiving your application!
